10 May 2024

Dear Parents and Carers,

I am writing to inform you about the upcoming end of year Science test for Year 9 students.

The test is scheduled to take place on Tuesday 25th June 2024 in the sports hall under the examination room settings.

As your child progresses into Year 10, they will also experience end of year exams for all their subjects under the exam conditions.

The Science department will share the topics for which students need to ensure they have revised. They will be given information on the rules and regulations of the exam room during assembly.

The test will last for 1 hour 30 minutes.

We completely understand that this may be a daunting experience for the Year 9s, but it will work to their advantage to get them prepared for the formal GCSE exams that will come around very quickly. The experience will also build exam skills and time management of test papers.

The experience will also enable them to start their revision process for the GCSE early, and the revision notes they start to make will benefit them in the future.

Year 9 is a hardworking year group, and we are confident that they will rise to the challenge. We wish to build resilient students who can undertake any challenge that comes their way.

We have a strong pastoral and mentor team who can support with any issues of nervousness in the lead up to the test.

Please do not hesitate to contact us if you have any questions or concerns.

Yours sincerely,

Mrs Allitt

Deputy Head Teacher
